Perfect
Sealing

High
Efficiency

Size(mm): 377×385×369

Machine Spec.

PN code	Speed	Film Type	Max Film Width	Voltage	Power	Weight
60A01152	30m/min	Air Pillow	300mm	200~240V	350W	19kg

Feature and Benefits

- Advanced heating element eliminates tension concentration joint, enhances a strong sealing.
- Real-time temperature correction, ensuring stable sealing.
- Roll maximum length 2300m (thickness 13μm), lower change over cycle.
- Dynamic heat sealing temperature and blowing speed adjustment based on operating speed, zero stop loss.
- Design without blade and Teflon belt, offer maintenance free operation.
